Projects

Zyora | [Link](#)

02/09/2025-16/09/2025

Developed Zyora, a full-stack web application using **React.js**, **TailwindCSS**, **Express.js**, **MongoDB**, with **JWT based authentication**, data validation using **Joi**, and payment integration via **Razorpay**. Implemented secure user registration and login, dynamic content rendering, and robust form validation. Focused on building a responsive, user-friendly interface and a scalable backend following modern web development best practices.

Blooger | [Link](#)

21/08/2025-30/08/2025

Developed a full-stack blog application using **Next.js**, **React.js**, **TailwindCSS**, and **MongoDB**. Implemented dynamic content creation, editing, and deletion features with secure data storage. Focused on building a responsive, user-friendly interface and efficient routing for seamless navigation.

Nitramax | [Link](#)

07/08/2025-15/08/2025

Developed a full-stack e-commerce web application using **React.js**, **TailwindCSS**, **Express.js**, and **MongoDB**. Implemented authentication with **Clerk**, dynamic product management, and **Razorpay** payment integration. Focused on building a responsive, user-friendly interface with secure backend operations.

Cineaura | [Link](#)

05/07/2025-12/07/2025

Developed a frontend movies web application where users can browse, search, and preview details of various movies. Built using **React.js** for dynamic content rendering and routing, with **Bootstrap** for responsive and user-friendly **UI/UX**. Focused on creating a seamless and interactive user experience with efficient navigation and clean design.
